# LED Lamp Wall Sconce

START FROM HERE

• Make sure power is completely off at the fuse box.
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area.
• Wear gloves at all times during this installation.
• Read instructions carefully before you start assembly.
• Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:
• All Kuzco LED fixtures come with pre-wired LED module(s).
• Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
• For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Remove the mounting plate **(1c)** from within the canopy **(2a)** by removing the two screws **(2b)**. Pull out the mounting plate **(1c)** from within the canopy **(2a)** and attach it to the electrical junction box **(1a)** , using the two screws **(1d)** provided in the hardware package.

2. Attach all wiring with the provided marrets **(1b)** (white to white "N", black to black "L", ground to ground "G"). Lift the canopy up onto the mounting plate and rest onto the mounting plate top flange. (**see illustration 3**). Once aligned, screw in the two screws **(2b)** provided to secure the canopy **(2a)** to the back plate **(1c)**.

3. LED Engine is built in. Push the glass **(2d)** up to the LED engine **(2c)** and thread, turning clockwise.

4. You have now completed the installation of your fixture, do enjoy.
