

KUZCO GROUP
T24 / JA8 High Efficacy Lighting

Title 24 - JA8 Compliant Lighting

Title 24 and JA8 are sets of lighting standards developed by the California Energy Commission (CEC) to ensure the improvement of energy efficiency and ecological impact of lighting in both residential and commercial buildings in the state of California. All lighting in new (and altered) homes and commercial buildings within California must be Title 24 compliant in an effort to grow energy efficiency, while lowering costs and raising reliability for lighting.

JA8 is a specific standard set within Title 24 with a focus on improving energy efficiency and quality of lighting in residential spaces. All Kuzco Group lighting that is Title 24 compliant is JA8 compliant.

Kuzco Group is proud to have a widened selection of designs that are Title 24 compliant. Continue to follow our growing list of Title 24 complaint selections by visiting www.kuzcolighting.com.
