

Pendant with drops of clear crystal diamonds.

38256

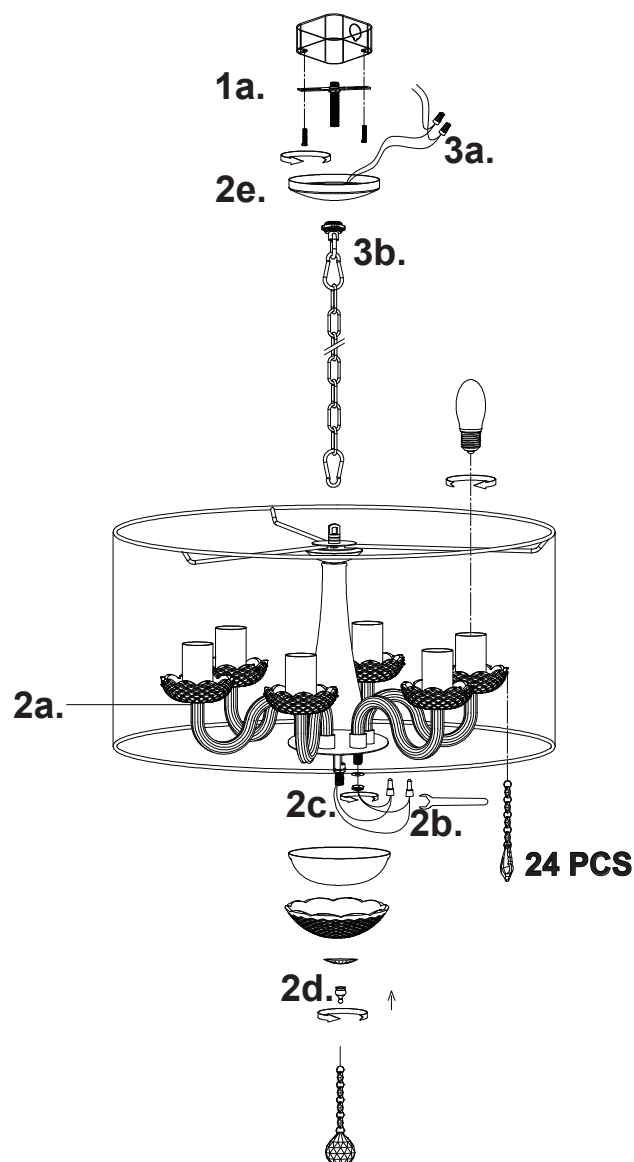

INSTALLATION SHEET

1. Remove the fixture from its original packaging. Remove the mounting plate (1a) from within the canopy and attach it to the electrical junction box on the ceiling using the two screws provided in the hardware package. (Please make sure that the electrical junction box you are using is capable of holding a static load of 18 kilograms / 40 pounds.)
2. Select the desired length you would like the fixture to hang down from the ceiling (42" maximum). Assemble the 6 decorative arms (2a) down onto the fixture's plate using the provided washers and hexagon nuts (2b). Next, unite the base cup, decorative cover and decorative washer to the underside of the fixture's centre stud (2c) using the decorative nipple nut (2d). From the top of the fixture connect the chain and thread the wiring up through the metal canopy (2e).
3. Once your fixture is near completion you can now attach the canopy to the mounting plate, which is attached to the electrical junction box on the ceiling. First attach all wiring (3a) with the provided marrets (white to white "N", black to black "L", ground to ground "G"). (It is recommended that two people complete this portion of the installation due to the size and weight of the fixture.) Push the canopy through the mounting plate stud installed on the ceiling and once set, screw in the carabiner nut (3b) to the stud.
4. Now that your fixture is installed to the ceiling you can install the A-19 light bulbs of the correct wattage.
5. Install all of the crystal accents to your fixture.
6. You have now completed the installation of your fixture, please enjoy.

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.
