

Single LED Lamp Pendant

401161CH-LED INSTALLATION SHEET

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) dimmer is required.

START FROM HERE

- Make sure power is completely off at the fuse box.
 - Have your fixture installed by a qualified licensed electrician
 - Prepare everything in clear area.
 - Wear gloves at all times during this installation.
 - Read instructions carefully before you start assembly.
 - Keep this instruction sheet for future reference.
- Technical Support:** 1-877-452-6858

- 1.** Remove the fixture from its original packaging. Remove the canopy mounting plate from within the canopy and attach it to the electrical junction box, and ceiling, using the screws provided in the hardware package.
- 2.** Select the desired length you would like the fixture to hang down from the ceiling (72" maximum). To set the fixture hanging height, undo the wire strain relief in the center of the canopy until the wire can move freely. Once the wire has been released, you can push the wire up to shorten, or pull the wire down to lengthen. When you have selected your desired length, tighten the wire strain relief in the center of the canopy and the wire will be held tightly in place, (2a) then slide the wire safety grip down the wire closest to the inside of the canopy where the wire enters.
- 3.** Attach the canopy to the mounting plate, which is attached to the electrical junction box on the ceiling. First attach all wiring with the provided marrets (white to white "N", black to black "L", ground to ground "G"). Align the two holes from the canopy to the two screws pointing down from the mounting plate. Push the screws through the canopy plate so they are poking through, once this is complete you can screw on the decorative nuts until tight
- 4.** Install the crystal light cover onto the fixture. Take the crystal light cover and guide it gently onto the fixture. Carefully turn the crystal light cover in a clockwise motion in order to screw it firmly into place (do not over tighten).
- 5.** You have now completed the installation of your fixture, please enjoy.
