

LED Lamp Ceiling Fixture

510803-LED

INSTALLATION SHEET

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) dimmer is required.

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

- 1.** Remove the fixture from its original packaging. Remove the mounting plate from within the fixture and attach it to the electrical junction box on the ceiling using the two screws provided in the hardware package.
- 2.** Attach the fixture to the mounting plate, which is attached to the electrical junction box on the ceiling. First attach all wiring with the provided marrets (white to white "N", black to black "L", ground to ground "G"). Push the screws through the two holes in the back of the fixture so they are poking through into the center of the fixture, once this is complete you can screw on the decorative nuts until tight.
- 3.** Take the bottom diffuser and install it on the bottom of the fixture, **(3a)** using the washer and nut to firmly lock it in place (do not over tighten).
- 4.** You have now completed the installation of your fixture, please enjoy.
