

Single lamp ceiling flush mount fixture

51891

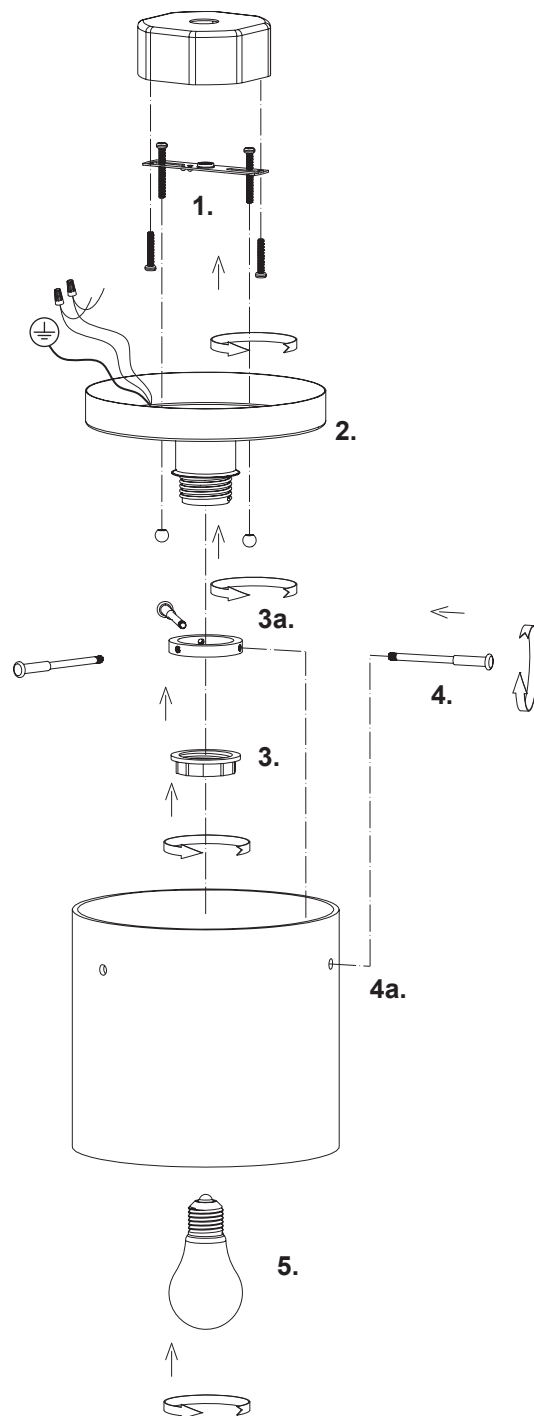

INSTALLATION SHEET

- 1.** Remove the fixture from its original packaging. Remove the canopy mounting plate from within the canopy and attach it to the electrical junction box on the ceiling using the two screws provided in the hardware package.
- 2.** Attach the canopy to the mounting plate, which is attached to the electrical junction box on the ceiling. First attach all wiring with the provided marrets (white to white "N", black to black "L", ground to ground "G"). Align the two holes from the canopy to the two screws pointing down from the mounting plate. Push the screws through the canopy plate so they are poking through, once this is complete you can screw on the decorative nuts until tight.
- 3.** Unscrew the metal locking ring from the lamp socket and gently slide the lamp socket into the center hole of the metal support ring **(3a)** Using the tool provided, screw the metal locking ring back on to the lamp socket now locking the metal support ring into place.
- 4.** Locate the three pins from inside the hardware package. These pins are to hold the glass lamp shade onto the fixture. **(4a)** Take the glass lamp shade and gently guide the light bulb into the center of the shade until one of the holes in the glass lines up with one of the holes in the metal support ring attached to the lamp socket. Now insert a pin through the hole in the glass, and screw it in to the hole on the metal support ring until it is tight (do not over tighten). Please proceed to line up the other two holes in the glass, with the other two holes in the metal support ring, insert the pins, and screw them in until they are tight (do not over tighten).
- 5.** You can now install the A-19 light bulb of the correct wattage.
- 6.** You have now completed the installation of your fixture, please enjoy.

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.
