# Ceiling Flush Mount

START FROM HERE

• Make sure power is completely off at the fuse box.
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area.
• Wear gloves at all times during this installation.
• Read instructions carefully before you start assembly.
• Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:
• All Kuzco LED fixtures come with pre-wired LED module(s).
• Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
• For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging.

2. Before connecting the fixture to the junction box first attach all wiring **(1b)** with the provided marrets (white to white "N", black to black "L", ground to ground "G").   Align the mounting screws **(2b)** through the holes on the back of the canopy **(2a)** and in a clockwise direction thread screws **(2b)** until the fixture is secured to the ceiling.

3. Install the shade cover **(2c)** by placing it into the canopy and turn clockwise until secure. *(do not over tighten). Lastly, place in your* A19 bulbs.

4. You have now completed the installation of your fixture, enjoy.
