

Ceiling LED Pendants

CH52118
INSTALLATION SHEET

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the canopy (2a) by removing the decorative nuts (2b). Secure the mounting plate (1c) (with canopy screws (1e) to the reinforced junction box (1a).

Before you mount the canopy to the mounting plate select the desired lengths you wish the pendants to hang.

2. To shorten the conduit just leave out sections of conduit (2c). To connect the conduit sections thread each conduit (2c) clockwise. Next, pass the electrical wire up through the conduit and through the canopy (2a) and thread the fixture (3) to the conduit (2c).

3. You are now ready to mount the canopy (2a) to the mounting plate (1c). First connect all wires (1b) correctly L live wire (black to black) N neutral wire (white to white) and G ground (green to green) with provided marrets from the hardware package. Align the threaded screws (1d) hanging downward from the mounting plate to the holes inside the canopy (2a). Push the canopy up towards the ceiling so the two screws point through the hole in the canopy (2a). You can now screw on the decorative nuts (2b) onto the threaded studs pointing through the canopy to securely connect the canopy to the mounting plate.

4. LED Engines are built in. Push the glasses (3b) up to the LED engines (3a) and thread, turning clockwise.

5. You have now completed the installation of your fixture, enjoy.
