# LED Exterior Flush Mount

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician.
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

Please Note:
- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.
- Must be installed on a covered ceiling
- 120V input

1. Remove the fixture from its original packaging. Next, remove the front cover **(2a)** from the canopy **(1c)**. Connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrettes **(1b)** from the hardware package. Attach the canopy **(1c)** to the electrical junction box **(1a)** on the ceiling using the two screws **(1d)** provided in the hardware package.

2. Align front cover **(2a)** with threads on canopy **(1c)**, gently turn the front cover clockwise until fully inserted back on, do not overtighten.

3. You have now completed the installation of your fixture, enjoy.
