LED Step Light

START FROM HERE

• Make sure power is completely off at the fuse box.
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area.
• Wear gloves at all times during this installation.
• Read instructions carefully before you start assembly.
• Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

Please Note:
• This Kuzco LED fixture comes with pre-wired LED module(s)
• Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
• 12V DC input with Class 2 LED Driver (Driver supplied by others)

1. Remove the fixture from its original packaging. Remove the mounting plate **(1c)** from within the fixture **(1f)** by removing the two screws **(1g).** Secure mounting plate **(1c)** to the electrical junction box **(1a)**, using the two screws **(1d)** provided in the hardware package.

NOTE: This fixture is to be used with a 1 Gang junction box suited for intended application with minimum inside dimensions of 3.5"H x 2"W and minimum depth of 2 3/4". A deeper junction box may be needed depending on hardware and type/amount of wires being used.

2. Make low voltage wire connection by connecting fixture wire to 12V low voltage input wire with marrettes supplied **(1b).** Align the gasket **(1e)** provided before securing the fixture **(1f)** to the mounting plate **(1c)**. Align the fixture to the mounting plate **(1c)** and secure using the two screws **(1g)** provided.

3. To prevent moisture from entering the outlet box and causing a short, seal around the top and side perimeter between the fixture and the wall surface with weather resistant caulking (**see illustration 1**). The space at bottom should be left un-caulked to prevent moisture build-up.

Caulking
