LED Exterior Wall Sconce

START FROM HERE

• Make sure **POWER** is **COMPLETELY OFF** at the fuse box
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area
• Wear gloves at all times during this installation
• Read instructions carefully before you start assembly
• Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
• This Kuzco LED fixture comes with pre-wired LED module(s)
• Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
• 120-277V input

1. Remove fixture from its original package.

2. Separate mounting plate **(1c)** from canopy **(2a)** by removing set screws with allen key **(2f).**

3. Attach mounting plate **(1c)** to electrical junction box **(1a)** using junction box screws provided **(1e)** in hardware package.

4. Make proper electrical connections (black to hot "L", white to neutral "N", ground to "GND") with wire nuts **(1b)** provided in hardware package.

5. Attach canopy **(2a)** to mounting plate **(1c)** with set screws and allen key **(2f).**

6. Open fixture flaps **(2b)** to desired position

7. To prevent moisture from entering the electrical junction box **(1a)** and causing a short, seal around the top and side perimeter between the fixture and the wall surface with weather resistant caulking **(Illustration 1)**. The space at the bottom should be left un-caulked to prevent moisture build up.

caulking
