# LED Lamp Wall Sconce

START FROM HERE

• Make sure **POWER** is **COMPLETELY OFF** at the fuse box
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area
• Wear gloves at all times during this installation
• Read instructions carefully before you start assembly
• Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
• All Kuzco LED fixtures come with pre-wired LED module(s).
• Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
• For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Remove the mounting plate **(1c)** from within the canopy backplate **(2b)** by loosening the two set screws **(2a)**. Attach the mounting plate **(1c)** to the electrical junction box **(1a)**, using the two screws **(1d)** provided in the hardware package.

2. Attach the canopy **(2b)** to the mounting plate **(1c)**, which is attached to the electrical junction box **(1a)** on the wall. First make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package and place driver **(4a)** inside canopy **(2b)**. Now push the canopy **(2b)** onto the mounting plate **(1c)** and secure with the two set screws **(2a)** using the allen key provided.

3. You have now completed the installation of your fixture, enjoy.

1a. 1b. 1c. 1d. 4a. 2b.
