Ceiling LED Pendant

PD23003 INSTALLATION SHEET

START FROM HERE

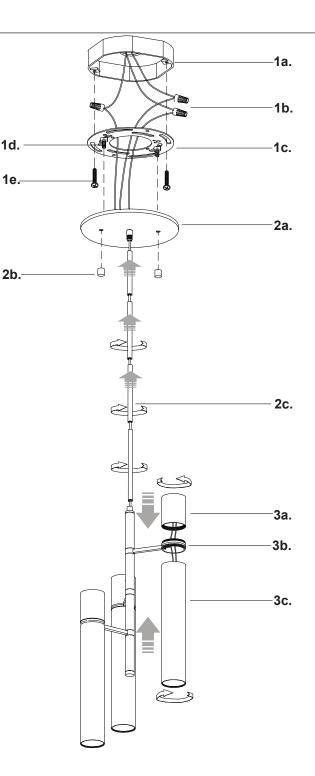

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

- Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the canopy (2a) by removing the two decorative nuts (2b). Secure the mounting plate (1c) to the junction box (1a) with the screws (1e) provided in the hardware package.
- Before you mount the canopy to the mounting plate select the desired length you wish the pendant to hang. To shorten or lengthen the fixture, just remove or add conduit sections (2c) by threading clockwise for adding and counter clockwise for removing.
- LED Engine is built in. Push the top casing (3a) down to the threaded fitting (3b) and secure turning clockwise. Push the bottom casing (3c) up to the threaded fitting (3b) and secure by turning counter-clockwise
- 4. You are now ready to mount the canopy (2a) to the mounting plate (1c). First connect all wires correctly L live wire (black to black) N neutral wire (white to white) and G ground to ground with provided wire nuts (1b) from the hardware package. Align the threaded screws (1d) hanging downward from the mounting plate to the holes inside the canopy (2a). Push the canopy up towards the ceiling so the two screws point through the hole in the canopy (2a). You can now screw on the decorative nuts (2b) onto the threaded studs (1d) pointing through the canopy and securely connect the canopy to the mounting plate (1c).
- **5.** You have now completed the installation of your fixture, enjoy.

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.
