

Ceiling LED Pendant

PD53305
INSTALLATION SHEET

START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all time during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

- 1.** Remove the fixture from its original packaging and remove the fixture mounting plate (**1c**) from within the hardware package. Attach the fixture mounting plate (**1c**) to the electrical junction box (**1a**) on the ceiling using the two screws (**1e**) provided in the hardware package.
- 2.** Attach the fixture to the mounting plate, which is attached to the electrical junction box on the ceiling. First attach all wiring (**1b**) with the provided marrets (white to white "N", black to black "L", ground to ground "G"). Push the screws (**1d**) through the holes in the back of the canopy so they are poking through the canopy (**2a**). Once this is complete you can screw on the decorative nuts (**2b**) until the canopy (**2a**) is secured to the ceiling.
- 3.** Select the desired length you wish the pendant to hang. To shorten or lengthen the fixture push up on the canopy nipples (**2c**) and push/pull the cable, release to secure.
- 4.** With the canopy secure, connect the glass diffuser (**3c**) to the fixture chassis (**3a**) using set screws (**3b**).
- 5.** You have now completed the installation of your fixture, please enjoy.
