

The Copenhagen Collection balances clean geometry with detailed glass for a sophisticated look. The stark, yet refined, finish of the black structure is in contrast with the translucent glass. The series includes wall-mounted sconces as well as chandelier configurations.

KICHLER

A corrugated backplate with a galvanized steel finish adds a rustic feel to the Wayland Collection. The all-metal housing and Weathered Zinc finish were inspired by vintage steel cans and doors from the 1950s. The series includes three sizes of wall lanterns, a semi-flush and a flush-mount. www.kichler.com

KALCO

The Belmont family has been expanded to include a collection of LED outdoor fixtures. The series is distinguished by painted reclaimed wood accents on a heavy gauge aluminum frame in a classic Florence Gold finish. The lanterns have a dedicated LED light source and are available in 3 wall bracket sizes plus a large post mount and a hanging lantern.

LBL

The Loom 14 ceiling flush-mount has a Mid-Century Modern style that features a metal, geometric pattern. The integrated, 3000K LED light shines through an acrylic diffuser to softly provide an ample amount of light to the surfaces below. It is available in either a Satin Nickel top with a White bottom or a Black top with a Satin Gold bottom (shown). Loom 14 measures 4" high x 14" wide x 14" long. www.lblighting.com

KONCEPT

The company's new Royyo series is available in desk lamp and pendant fixture models. Its circular design and discrete wiring system helps maintain a clean and contemporary silhouette. The pendants are available individually or can be grouped to make more of a visual impact. www.koncept.com

KUZCO

The Arctic collection uses basic wire rods to form its structure and aesthetic form. The seemingly continuous lines interconnect, creating a complex framework that encapsulates the light source. A substantial glass optic is the focal point of the lamp, augmented by the concentric rings of the lightweight latticework design. www.kuzcolighting.com
