**12. KUZCO**

The Cursive is a graceful, fluid collection showcasing acrylic curves that dance around a center column or arch elegantly from a ceiling, offering a soft, even glow from within. Cursive offers preconfigured expressions, available in black metal with frosted lenses, or customizable options. [www.kuzcolighting.com](http://www.kuzcolighting.com) • 4010 TM

**13. MODERN FORMS**

The new Avant Garde lantern collection – available in 3 sizes – features a classic profile with a clear mouth-blown glass element. Inside, a 90 CRI Edison bulb operates with a universal voltage driver in the canopy. The lantern dims with ELV, TRIAC, and 0-10V dimmers. **14. GAMA SONIC**

The GS-117 is a contemporary outdoor solar pathway light that can be installed in various configurations. Attach the sleek, Minimalist lamp head to its post in three ways: corner, center, or side. Place this solar light in any area that receives at least 4-6 hours of direct sunlight each day and the light will shine at 80 lumens from dusk until dawn. Dual CCT control allows for either 2700K or bright 5000K light. [www.gamasonic.com](http://www.gamasonic.com) 4525 TM
