KUZCO

THE HIT

Parade

These new products have been generating interest and orders.

1 / MID-CENTURY MODERN CHARM

This 14-light fixture from the Xenia Collection is enhanced by a Matte Gold finish that showcases the linear design with metal arms of varying lengths that can be easily adjusted — from a near parallel position to a loosely gathered look. Filament bulbs are an available option.

2 / PARALLEL LIVES

Utilizing the same round profile and diffused illumination as the company's Chute series, the Calypso multi-pendant combines disparate ring and linear shapes into one composition. Each element is height-adjustable, allowing users to create custom arrangements. It can be specified in either a Black or White textured finish.
