KUZCO

DALLAS DYNAMITE

TM = Trade Mart | WTC = World Trade Center | IHDC = Interior Home + Design Center

JULISKA

Known for mouth-blown Bohemian artisanal glassware and tableware from the Czech Republic, the company also offers pendants, sconces, and chandeliers. Shown here is a stacked sconce in the Naomi motif on Prague hardware. **10085 WTC (Light + Design on Ten)**

MODERN FORMS

The new Avant Garde family boasts a classic lantern profile in a modern Black finish. A clear mouth-blown glass element evokes a visual reference to a vintage Edison filament lamp. The fixture operates with a universal voltage driver (120V-220V-277V) within the canopy and dims down with an ELV, TRIAC, and 0-10V dimmer. The Avant Garde lantern is offered in 3 sizes – 9, 12, and 16 inches – and has a lamp life rated at 50,000 hours. **3101 TM**

KUZCO

A constellation of radiant globes seemingly float around the center of the Moto chandelier's geometric structure. Slim, intersecting metal arms project the opal glass globes from the center. **4010 TM**

INNOVATIONS

This 3-light vanity light is part of the Aurora Collection and comes in 1-, 2-, 3-, and 4-light versions as well as mini pendant, semi-flushmount, and 2 sconce styles. There is a choice of 2 finishes – Black Brushed Brass and Black Brushed Nickel – both with extra 5.5-inch backplates included. The collection contains a thick metal reflector plate that increases light output and is made with solid brass fittings. **3915 TM**
